EDUCATION

Bachelor of Engineering in Electrical Engineering 2023 - 2028 expected

Concordia University, Montreal, QC | Career Edge (C.Edge) | CGPA 3.58/4.30

Relevant coursework: Basic Circuit Analysis, Fundamentals of Control Systems, Fundamentals of Applied Electromagnetics

TECHNICAL SKILLS

Programming: C++, Java, MATLAB

Engineering software: PSpice, Fusion

Development tools: Eclipse, Visual Studio, Android Studio, GitHub

Additional tools: Linux, macOS, Excel

Languages: English and Vietnamese: fluent, spoken and written

ENGINEERING PROJECTS

Smart Cane for Fall Detection and Emergency Response May - August 2026

Concordia University, Montreal, QC

- Designed an assistive device for real-time fall detection and emergency notifications to support elderly safety.
- Integrated motion sensors, GPS tracking, and embedded microcontroller systems to monitor user status and location.
- Developed wireless communication and caregiver alerts to support emergency response.

Autonomous Hovercraft Design January - May 2026

Concordia University, Montreal, QC

- Studied control systems, propulsion methods, and stability techniques for an autonomous hovercraft.
- Developed the system architecture, including sensor and microcontroller selection and basic navigation algorithms.

WORK EXPERIENCE

Cashier | Iampho, Montreal, QC 2023 - 2026

- Processed customer payments, operated the POS system, balanced the cash drawer, and reported discrepancies.
- Resolved routine customer issues and supported restocking during busy service periods.

Waiter | Edo Izakaya, Montreal, QC 2023 - 2024

- Coordinated with kitchen and bar staff to maintain service during peak hours while meeting cleanliness and presentation standards.

VOLUNTEER EXPERIENCE

ConUHacks | Montreal, QC January 2026

- Coordinated volunteer operations, participant check-in, venue setup, and event logistics with organizers, mentors, and sponsors.

IEEE Ottawa Robotics Competition | Ottawa, ON May 2022

- Co-organized supervisor training and coordinated scheduling, logistics, and communication with schools and mentors.
